

MBTI® Qualifications Program Overview

CPP's highly interactive, four-day MBTI® Qualifications Program teaches you how to professionally and ethically administer and interpret the MBTI instrument. This workshop provides instruction of type theory and key MBTI applications such as team building and leadership development. Upon successful completion of the course, you will receive an MBTI® Step I Qualification Certificate and an MBTI® Step II Certificate of Completion. With these designations, you will be eligible to purchase and use all the MBTI assessments and reports.

QUALIFICATIONS PROGRAM COVERS THESE TOPICS:

• **Introducing Type Concepts to Teams and Workgroups**

- Administering the instrument
- Defining the MBTI dichotomies
- Verifying type
- Using the *Presenting Type in Organizations* presentation
- Activities to use with teams

• **Using the MBTI Assessment**

- Understanding the differences between trait and type instruments
- Appropriate and ethical use of the instrument
- Contracting to use the instrument
- Psychometric aspects of the instrument

• **Using the MBTI Instrument with Individuals**

- Practice administering and scoring the instrument
- Interpreting MBTI instrument results
- Practice working with clients and interpreting results

• **Using the MBTI Instrument for Individual and Leadership Development**

- Type dynamics
- Type development
- Type and stress
- Type and leadership styles
- Practice using type dynamics and type development with clients

• **Using MBTI® Step II Instrument and Interpretive Report**

- Development and psychometric aspects of the MBTI Step II instrument
- Definition and meaning of the 20 MBTI Step II facets
- Practice interpreting with clients
- Case studies of Step II results

• **Each learning module includes:**

- Presentation of essential information with practical examples
- Participant practice with feedback
- Resources for applying the MBTI instrument
- Evaluation through short, multiple choice exams
- Self-assessment and action plan
